The Apple Seed

Listen to the story. Circle the picture that answers each question.

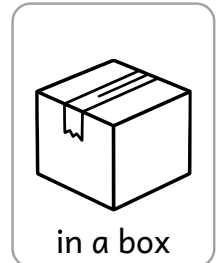

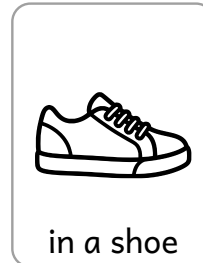

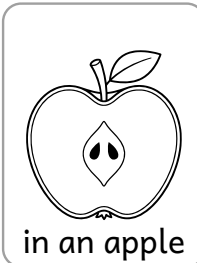

READ ALOUD: THE APPLE SEED

Lily found a small brown seed in the core of her apple. She planted it in a pot of soil.

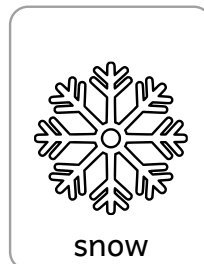

A tiny tree sprouted. Year after year, it grew taller, and Lily planted it outside.

One spring, the tree was covered in pink and white blossoms. Bees visited them. In fall, apples grew where the blossoms had been. Each apple had seeds inside!

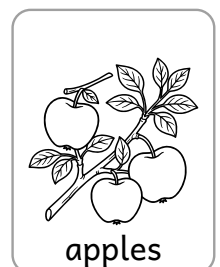

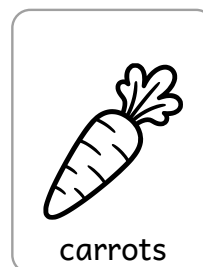

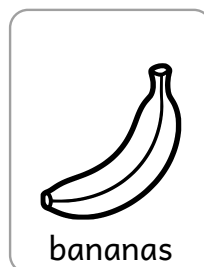

1. Where did Lily find the seed?

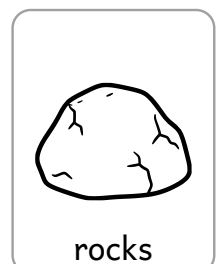

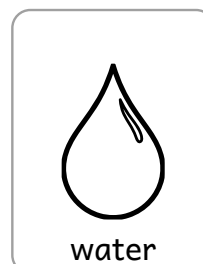

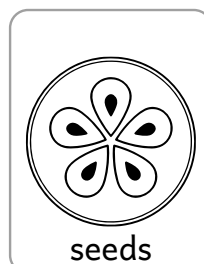

2. What covered the tree in spring?

3. What grew where the blossoms had been?

4. What was inside each apple?
