Compare Two Texts: Bees

Listen to both texts. Then draw or write: what is only in A, only in B, and in both?

READ ALOUD

A Busy Bees

Bees live in a hive. All day, bees fly from flower to flower. They drink nectar, a sweet juice inside flowers. Back at the hive, bees use nectar to make honey.

B Bees Help Plants

A bee has six legs and four wings. When a bee lands on a flower, yellow dust called pollen sticks to its legs. The bee carries the pollen to the next flower. This helps plants make seeds.

Which one tells how bees make honey? Circle.
