Sound Comes from Vibrations

To vibrate means to move back and forth very fast. Things that vibrate make sound.

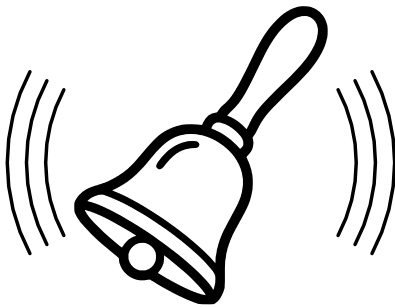

drum

Tap a drum. The top of the drum vibrates.

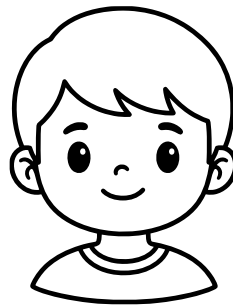

guitar

Pluck a guitar string. The string vibrates.

bell

Ring a bell. The metal bell vibrates.

your voice

Hum and touch your throat. You can feel it vibrate.

When the vibrating stops, the sound stops.

Hold a ringing bell tight. It stops vibrating, and the sound stops too.
