

Name _____

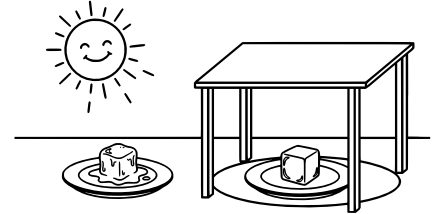

Date _____

Ice in the Sun and Shade

Draw the ice cubes each time you check them.

Read aloud

1. Put one ice cube on a plate in the sun and one on a plate in the shade.
2. Draw both ice cubes at the start.
3. Check every 10 minutes and draw them again.

30 min

Which ice cube melted first?

sun

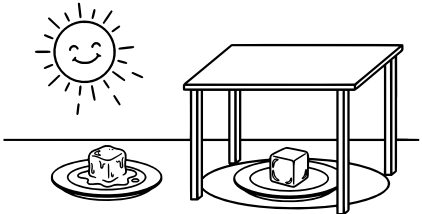

shade

Ice in the Sun and Shade

What usually happens.

Note: The ice in the sun usually melts first, because sunlight warms it. Children's drawings will vary.
