Make a Boat That Floats

Change the shape so it floats. How many coins can your boat hold?

Read aloud

1. Roll a ball of play dough or crumple a piece of foil. Drop it in water. It sinks!
2. Help your child flatten it and push up the sides to make a boat shape.
3. Float the boat. Add coins one at a time until it sinks, and count them.

My boat

Did my boat float?

yes

no

How many coins did it hold?
