Sam's Bean Seed

Listen to the story. Circle the picture that answers each question.

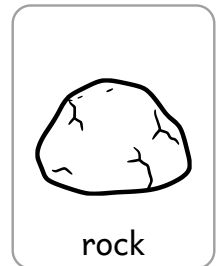

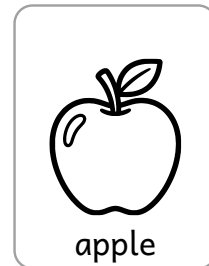

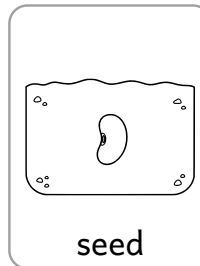

READ ALOUD: SAM'S BEAN SEED

Sam put a bean seed in a cup of soil. He gave it water every day.

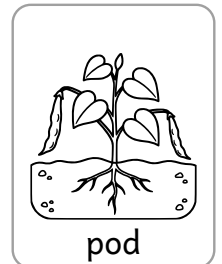

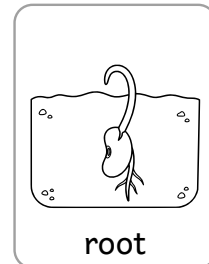

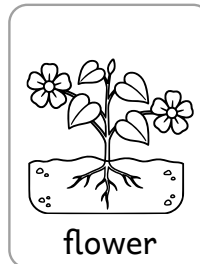

First a root poked out of the seed and grew down. Then a green shoot grew up into the light.

The shoot became a seedling with two leaves. It grew into a big plant with white flowers. Where the flowers were, long green pods grew. Inside each pod were new bean seeds!

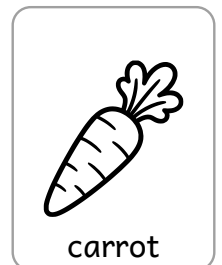

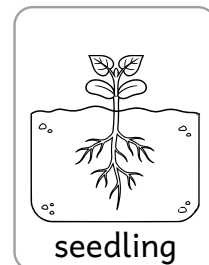

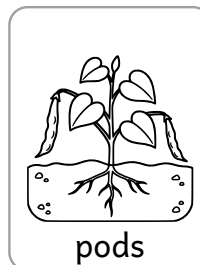

1. What did Sam plant?

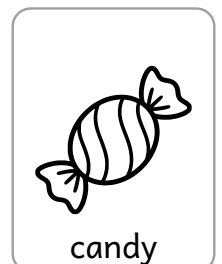

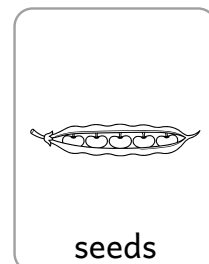

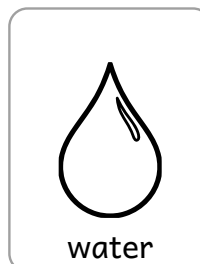

2. What grew down first?

3. What grew where the flowers were?

4. What was inside the pods?
