Rain Cloud in a Jar

A grown-up helps. Make a cloud in a jar and watch it rain.

You need

a clear jar

water

shaving cream

dropper or
spoon

blue food color

READ ALOUD: WHAT TO DO

1. Fill the jar most of the way with water.
2. Put a layer of shaving cream on top. This is your cloud.
3. Drop blue water onto the cloud, a little at a time.
4. Watch. When the cloud is too full, blue "rain" falls into the water!

I think it will rain:

after a few drops

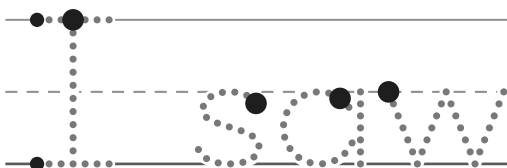

after many drops

before

after

Real clouds are made of tiny drops of water. When the drops get big and heavy, they fall as rain.
