

Name _____

Date _____

Snowy Days

A grown-up reads the text aloud, then reads each question. Circle or draw the answer.

READ ALOUD

In winter, some places get very cold. When it is cold enough, the water in clouds freezes and falls as snow.

Snow is made of tiny snowflakes. Every snowflake has six points, and no two look exactly the same.

Snow is cold and wet, so we put on warm coats, hats and mittens before we go out to play.

Snow is fun! You can slide on a sled, make a snow angel, or roll big balls of snow to build a snowman.

1 What is this mostly about?

2 What can you build with snow?

3 What do we wear to play in the snow?

4 Is snow warm?

yes

no
