Sink or Float: Predict and Test

Circle what you think. Then test it and circle what happened.

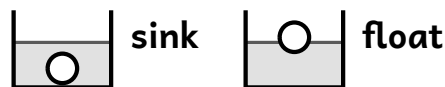

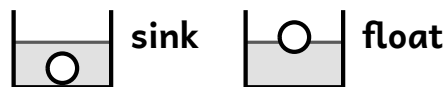

Read aloud

1. Fill a tub or a big bowl with water.
2. Hold up each thing. Ask: Will it sink or float? Circle it under I think.
3. Put it in the water. Circle what it did under I found.

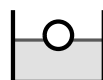

I think

I found

How many sank?

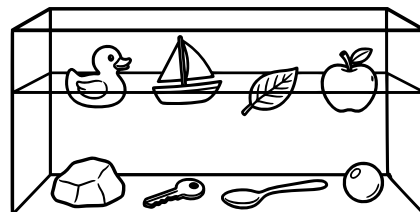

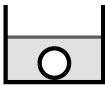

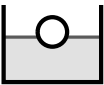

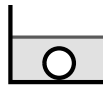

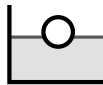

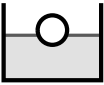

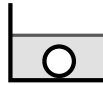

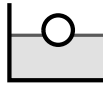

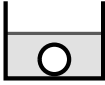

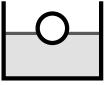

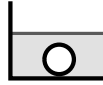

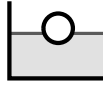

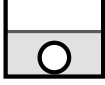

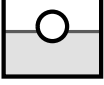

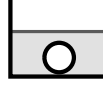

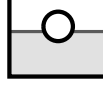

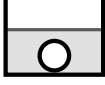

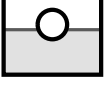

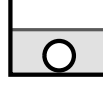

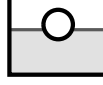

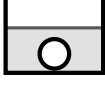

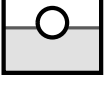

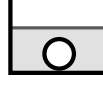

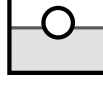

How many floated?

Sink or Float: Predict and Test

What usually happens in a tub of water.

Note: Real tests can differ (a hollow toy or an old egg may float). Praise careful testing, not only the usual answer.

		I think	I found
1	 rock	 sink  float	 sink  float
2	 apple	 sink  float	 sink  float
3	 coin	 sink  float	 sink  float
4	 leaf	 sink  float	 sink  float
5	 metal spoon	 sink  float	 sink  float
6	 piece of wood	 sink  float	 sink  float

How many sank?

3

How many floated?
