# Test My Shade

Draw the ice cubes each time you check. Did your shade help?

## Read aloud

1. Put one ice cube in the sun with no shade.
2. Put one ice cube under the shade you built.
3. Check every 10 minutes and draw both ice cubes.

No shade

My shade

Start

10 min

20 min

Did my shade keep the ice cold longer?

yes

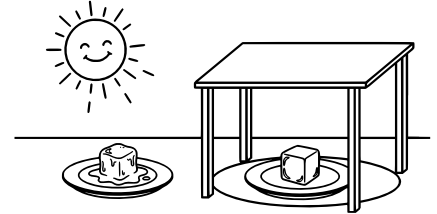

no

# Test My Shade

What happens when the shade works.

**Note:** If the shade works, the ice under it melts more slowly. If not, talk about how to make the shade bigger or thicker.
