

Name _____

Date _____

Water Cycle in Order

Start with the sun warming the water. Write 1, 2, 3, 4 to show what happens next.

clouds form

the sun warms
water

rain falls

water goes up

Draw a rainy day. Show the clouds, the rain and where the water goes.

The full water cycle is studied in later grades. In kindergarten it links to rain, clouds and the weather.

Water Cycle in Order

The sun warms water, water goes up, clouds form, rain falls. Then it starts again.

clouds form

3

the sun warms
water

1

rain falls

4

water goes up

2

Draw a rainy day. Show the clouds, the rain and where the water goes.

The full water cycle is studied in later grades. In kindergarten it links to rain, clouds and the weather.
