# Count Our Weather

Use your weather chart. Make a tally mark for each day. Then write how many.

| Weather                                                                                   | Tally marks | How many?            |
|-------------------------------------------------------------------------------------------|-------------|----------------------|
|  sunny   |             | <input type="text"/> |
|  cloudy  |             | <input type="text"/> |
|  rainy   |             | <input type="text"/> |
|  snowy |             | <input type="text"/> |
|  windy |             | <input type="text"/> |

Which weather did we have the most?

Which weather did we have the least?

Tip: one tally mark for each day. Draw every fifth mark across the other four.
